

# **1st Book of Adam & Eve – Time to Examine the Removed Books of the Bible – Read for Yourself – Don't Take the Word of Man Made Religious Doctrine Organizations!**

I found this 1st Book of Adam & Eve very interesting and insightful to the relationship between Adam and Eve, Adam and Eve and God, Adam and Eve's further interactions with Satan and much more.

From my first listening through what I heard was in line, in character with the Genesis and various Heaven and Hell visitations accounts. I felt it important to gain more of a feel and understanding of man's relationship with God. It was pretty neat to see the perspective and feelings of God towards the scenario of Adam and Eve after sinning and Satan, who had become a major annoyance. Also God talks a lot about how He must come back in 5,500 years to become man like Adam and restore things by sacrificing His life. After that point cosmic restoration of things is restored and Adam and Eve can be restored to their original powerful spirit man body.

I also felt it important to understand the perspective of what Satan and the other rebellious spirits are about, their attitude, why they hate man and want to wipe man out. You learn more about the person and character of Satan and how his "job" is to deceive, deceive and deceive! There is nothing good about him and anything he promises you is for the purpose of destroying you. So any temptation and draw of this world is there with the purpose for tricking you away from God to

everlasting destruction.

Our spirit man, the one you have revived when born again, the light filled being Adam and Eve first were before sinning made the angels quake and tremble in our pretense. But after we sinned and took on flesh animal nature, we quake and tremble at the angels. That was interesting too.

Adam and Eve did a LOT of praying and worshiping! Wow. Time we start doing the same!
