

# Wow As Good a Preaching I've Heard in a While By Alex Jones??!

Now I've sent these guys some info and a link to [Mike Thompson's](#) YouTube channel. I don't know if that had anything to do with things but Alex has learned quite a bit over the past few months. It's not just about globalists vs. nationalists – that's the smaller picture. The real picture is in the spiritual realm – and Alex has increased his comprehension of it considerably!

Check this out. We need more guys to turn into tough guys, warrior guys like Alex and [Donald Trump](#). So get on the warrior trend. Stop eating plastics. Cleans yourself of xenoestrogens, heavy metals that have been purposefully feminizing men physically and chemically. (Wait till you learn about all of the intentional chemical poisoning of America – you'll flip out, start cleansing supplementation programs, eat organic, start growing your own food and get really mad against these evil corrupt industries that have been essentially poisoning us, killing us, wrecking our hormones, wrecking our immune systems (learn about chem trails and how they purposefully spray our skies with heavy metals and pathogens stuck in fibers to weaken our immune systems so we depend on a corrupt medical industry and corrupt pharmaceuticals. Yeah you're going to get really mad see what they've been doing to you and your family. Which is good. You, we need to go into warrior mode and take back this country. Get our minds back. Start eating God's creation instead of man's corrupted junk. )

Oh yes there's another issue dealing with the pineal gland. Well according to studies so far, the dark side is trying to calcify our pineal gland so we can't access God – that's the

concept. So if one is eating all sorts of junk food, drinking lots of fluoride and chlorine in the water, using fluoride toothpaste, getting heavy metal fillings, eating non organic loading up with pesticides – you likely have a crystallized, yes crystallized pineal gland. What this does in concept is get you to focus more on the flesh, our animal nature as Adam called it in the [1st book of Adam and Eve](#)

I have noticed this myself over the years. I've gone through periods of eating super pure like a machine, to eating junk back to eating super pure in addition to all sorts of different experiments in between. When I eat more junk, processed junk, fast food, artificial sweeteners, refined sugar I would be much more focused on carnal things, things of the flesh, evil thoughts. It's pretty disgusting to even think about being in the flesh (barf) vs. being in the Spirit.

Speaking of refined sugar, which now after testing I would say is the top most potent poison in America : try this: eat natural cane sugar one day, then white refined sugar the next: for me: cane sugar was hardly felt My teeth my white refined sugar started hurting my teeth. Cane sugar, after I ate it, didn't give me the sugar low that I got all eating white refined sugar. Cane sugar didn't have that feeling of dropping my immune system like white refined sugar has.

When a patient checks in the Moffitt Cancer Center I was told by someone who worked there that patients checking in that have cancer are told to stop eating white sugar, white flour and artificial sweeteners – that's interesting! I noticed that all three of these things drop my immune system like a rock. So if I am fighting a bug initially and am eating these poisons then I open the window to get sick. And that's how I've gotten sick most of the time in the past with colds and flus.

Interesting isn't it. You may want to experiment on yourself to verify or just simply stop eating this poison because now

you know it's bad, Moffitt Cancer Center says it's bad and it's just comments. Start appreciating God's food. Start eating man corrupted versions of God's food disgusting and start to find the taste of which disgusting. Yes it's going to take some work but it's worth it. Otherwise eventually these poisons will likely promote cancer as well and will likely also generate many different functions within yourself leaving you vulnerable to all sorts of disease. Of course do your own research we can certainly not advise you on such health issues.

Anyway Alex talks a bout the details of the enemy's agenda. They publish their own agenda and people have known for a long time. But the enemy thought they would take over in 2016 and start the Tribulation period. Not so fast! Guess Who is in control? !! And HE says it's time to smash the enemy and open up the Great End Times Harvest! So get your warrior suit on and get out in the battle for [1 billion souls](#)! (See Mark Taylor prophecy writings)

## 100 Days in Heaven by James A. Durham Book Review

This book was absolutely mind blowing. James was taken it to Heaven and was shown several things. He was given gifts by the Lord. But he also tragically saw a vast empty space in heaven. And the Lord Jesus told him that, "This is the unoccupied part of Heaven. It should be filled with people, but my church has not done its job. The people who were to live here have never been reached by the Gospel of the Kingdom. They were never given a chance to except it and come to their Heavenly home!"

That message was from the Lord himself. So there's a lot of lazy doctrine out there that assumes that people will just somehow automatically get saved. But that's not the case as we see here. If people don't hear the Gospel and accept it, they don't get into Heaven. It is our responsibility to present

the Gospel of the Kingdom. If not people will end up in Hell! Where else do you think they're going to? Their destiny was to make it into Heaven but it looks like someone else's destiny was not fulfilled whereas their destiny was to tell these folks the Gospel who were missing Heaven.

The Majority of Christian religions and denominations have slipped into some sort of deception. They think it's okay to do nothing. The Bible commands us to be prepared with a testimony and gospel presentation. So we all better work on this hard and fast. And then get out there and share the Gospel online or off-line!

Others having visitation testimonies say how we will be held accountable for the blood those to whom we did not witness and end up going to Hell. If you think about that, that is terrifying. So we better get on the ball and witness to every creature, person we see and more.

Now you have tremendous opportunity with the Internet. So get out there! If you don't know what to say at the start just share other peoples content on the Internet that has good content that shares the Gospel in different ways with different angles.

Actually the search engines love that. If you simply share other peoples content and comment on them guess what you become? A news media site! That's all they do. How many news media sites come up with their own content? Well come to think of it some do have a little but it's mostly just commentary on News articles they gift from the Associated Press from what I see.

There are a ton of videos on YouTube you can share and comment on as well. People love that and so do the search engines. You can make a difference! Get out there and start doing the small things in God may reward you with bigger and bigger things!

Remember also everything you do now will be rewarded as well.

Remember that you don't automatically get a mansion in Heaven! You have to build that through your obedience, your good works, your time in prayer, time witnessing, your timing praise and worship, your time reading the Bible, time serving the church, your tithes and your offerings above your tithes – this was revealed to Pastor Park in his after death and back Heaven and Hell visitation testimony

James' Book Will take you through 100 different days of mind blowing revelation visits in Heaven. You will actually get to know about things in Heaven! It is very amazing. You need to be equipped with this knowledge now! You need to gain the reality of Heaven now for it will certainly increase your faith levels!

This book will also teach you how to interact with the Lord better. Sometimes this all seems like it's out there so far and God is so far out there. But He is not. He's always with you. He is always! With you! He hears your every word. He knows your every thought in your mind and in your heart. So open up! Enjoy the Lord. Learn from him. Follow his teaching and his direction. Okay His commands. If you do so and don't lean onto your own understanding, rather lean on the Lord you could have great success!

There are many things, amazing things that James taught for him to teach us. For example I'm looking at day 14 and it's amazing insight on how to pray correctly in fellowship with God correctly. God tells him! The Holy Spirit tells James exactly.

Well I could go on here. But would end up writing several pages. But it's better that you get the book and read through three times. Take notes! It's that important. Your understanding will be increased dramatically.
